

GO:0019318 – hexose metabolic process
GO:0005996 – monosaccharide metabolic process
GO:0005975 – carbohydrate metabolic process
GO:1901292 – nucleoside phosphate catabolic process
GO:0072525 – pyridine-containing compound biosynthetic process
GO:0072524 – pyridine-containing compound metabolic process
GO:0061623 – glycolytic process from galactose
GO:0061622 – glycolytic process through glucose-1-phosphate
GO:0061620 – glycolytic process through glucose-6-phosphate
GO:0061615 – glycolytic process through fructose-6-phosphate
GO:0051646 – mitochondrion localization
GO:0046939 – nucleotide phosphorylation
GO:0046835 – carbohydrate phosphorylation
GO:0046496 – nicotinamide nucleotide metabolic process
GO:0046365 – monosaccharide catabolic process
GO:0046031 – ADP metabolic process
GO:0042866 – pyruvate biosynthetic process
GO:0033499 – galactose catabolic process via UDP-galactose
GO:0030307 – positive regulation of cell growth
GO:0019751 – polyol metabolic process
GO:0019402 – galactitol metabolic process
GO:0019400 – alditol metabolic process
GO:0019388 – galactose catabolic process
GO:0019363 – pyridine nucleotide biosynthetic process
GO:0019362 – pyridine nucleotide metabolic process
GO:0019359 – nicotinamide nucleotide biosynthetic process
GO:0019320 – hexose catabolic process
GO:0016052 – carbohydrate catabolic process
GO:0010212 – response to ionizing radiation
GO:0009206 – purine ribonucleoside triphosphate biosynthetic process
GO:0009201 – ribonucleoside triphosphate biosynthetic process
GO:0009185 – ribonucleoside diphosphate metabolic process
GO:0009179 – purine ribonucleoside diphosphate metabolic process
GO:0009168 – purine ribonucleoside monophosphate biosynthetic process
GO:0009166 – nucleotide catabolic process
GO:0009156 – ribonucleoside monophosphate biosynthetic process
GO:0009145 – purine nucleoside triphosphate biosynthetic process
GO:0009142 – nucleoside triphosphate biosynthetic process
GO:0009135 – purine nucleoside diphosphate metabolic process
GO:0009132 – nucleoside diphosphate metabolic process
GO:0009127 – purine nucleoside monophosphate biosynthetic process
GO:0009124 – nucleoside monophosphate biosynthetic process
GO:0006757 – ATP generation from ADP
GO:0006754 – ATP biosynthetic process
GO:0006165 – nucleoside diphosphate phosphorylation
GO:0006096 – glycolytic process
GO:0006090 – pyruvate metabolic process
GO:0006059 – hexitol metabolic process
GO:0006012 – galactose metabolic process
GO:0006006 – glucose metabolic process
